

Field Lab-Pack Environmental Chemist

This professional position will support ENPRO's growing clientele with hazardous waste characterization, packaging, manifesting, transportation, and disposal service needs. The manifesting and transportation of oil and hazardous waste is a key component of most ENPRO projects. The position and duties of an Environmental Chemist for ENPRO is not restricted to that of a traditional Lab-Pack Chemist. Instead, the position calls for an individual interested in all facets of ENPRO's environmental work, but with specialization in the area of oil and hazardous waste characterization, packaging, manifesting, transportation, and disposal.

REQUIRED:

- ✓ 2 – 5 years related industry experience
- ✓ OSHA 40-Hour Hazardous Waste Operations and Emergency Response (HAZWOPER) training certification with current 8 hour refresher training certificate
- ✓ Strong written and verbal communication skills and the ability to work well with ENPRO's wide variety of public and private sector clients

PREFERRED:

- ✓ BS degree in Environmental Science, Chemistry, Biology, or other related majors
- ✓ Experience with computerized waste manifesting, labeling and tracking systems
- ✓ Commercial Driving License (CDL) with Hazardous Materials endorsement
