

ENPRO Adds Key Personnel Across New England Offices

November 2010

[ENPRO Services, Inc. \(ENPRO\)](#), a customer-focused firm specializing in the management of oil and hazardous waste, has over the course of 2010 seen steady growth and in response has added a number of key personnel across its New England offices. Most recently, Project Scientist Tony Santa Fe and Project Manager Bill Veren have joined ENPRO's Newburyport, MA and Burlington, VT offices, respectively.

"2010 got off to a great start for ENPRO with the addition of a new Emergency Spill Response and Field Service Center in our Burlington, VT location, and business has continued to grow," said David Cowie, Chief Operating Officer, ENPRO Services, Inc. "We welcome Tony and Bill to our team of talented, dedicated environmental service professionals as we look forward to maintaining ENPRO's upward trajectory."

Bill Veren comes to ENPRO's Burlington, VT field office from the waste management company firm Safety-Kleen, where he held positions in waste oil operations, project management, market sales, and customer service management. He attended the University of Northern Iowa.

In Mr. Veren's position as Project Manager for ENPRO, his primary role will be to perform a variety of project management functions and field work for the assessment and remediation projects within ENPRO's geographic service area. This position entails environmental assessment, remediation task development and implementation, and management of all aspects of the wide range of environmental assessment and remediation projects that ENPRO undertakes.

Prior to joining ENPRO, Tony Santa Fe worked in the Environmental and Safety Auditing department of Merrimack Environmental in Merrimac, MA. He earned a B.S. degree in Safety Science from Keene State College, New Hampshire.

As a Project Scientist at ENPRO's Newburyport, MA headquarters, Mr. Santa Fe will provide technical support within the Technical Services Division, including overseeing and documenting initial response actions and subsequent remedial activities, planning and implementing field investigations. In addition, he will perform environmental sampling and field screening, reduce and analyze data, draft technical reports, and coordinate with ENPRO clients, regulatory agency personnel and subcontractors.

About ENPRO

ENPRO Services, Inc., (ENPRO) is a customer-focused firm specializing in the management of oil and hazardous waste. With over 25 years of industry experience, ENPRO serves a diverse client base from its fully equipped service centers located in Newburyport, MA, Portland, ME, Pembroke, NH and Burlington, VT. ENPRO provides comprehensive environmental services to address virtually any project

that requires the professional management of oil and hazardous waste, featuring 24-hour emergency response, waste transportation and disposal, small- and large-scale site clean-ups, technical assessments, equipment rental, and the removal and installation of petroleum/chemical distribution and storage tank systems, as well as a broad range of additional field and technical services. ENPRO is recognized throughout the Greater Northeast region for its depth of seasoned employees and their ability to complete assignments on a turnkey basis using company-owned resources.
